

Harvest from Time, Treasure, & Talent Group Exercise

We join groups because

- We have the energy and passion to work on a particular issue
- We cannot sit still and do nothing
- Share the values of the organization
- Feel better
- Have found and built community of like interests
- It is a labor of love
- Offers the opportunity to try new things
- Feel appreciated

We discussed that we “JUST” give money to organizations that have the paid staff or where we have values but no skills or time or desire to work in those vineyards

We also discussed how sometimes in League that we look down on those of our members who “only” donate

We need everyone...members who work 100 hours a week and donate and tap dance to those who attend our meetings to those who are one issue people to those donate to those who volunteer who aren't paid members.... AND THEREFORE WE NEED TO APPRECIATE EVERYONE AND WELCOME EVERYONE...

How to do this with limited volunteers and lots of work? That is why we need Membership, Engagement, & Leadership Development committees or teams to discuss how to answer this question for each League
