The Senate has passed their budget and the House has plunked its budget onto the Senate's. As of this writing, here is where things are for bills we continue to follow. The most important thing you can do now is to thank legislators for the bills you're happy about and passed. Many bills have not yet had a floor or final vote. If there are bills you would like to see strengthened or refiled ask your representatives to do that in the next session.

As always, the most effective influence we can have really is for many voices speaking for themselves rather than many voices speaking for the League. Remember to speak for yourself. The Issue Chairs will speak for the League. **Learn how to participate [HERE](#).**
