

PUBLIC UTILITY DISTRICT FACT SHEET

What does a Public Utility District do?

Provides electricity, or water/sewer, or local access to broadband telecommunication services

PUDs are governed by a Board of 3 or 5 elected commissioners who serve 6-year nonpartisan terms.

What do PUD Commissioners do?

Set customer rates

Oversee the operations of the PUD

Establish policies, approve budgets, spending, & projects.

YOUR VOTE for PUD commissioner can impact your life not only by the utility rates they set, the bonds they issue, or the taxes they levy, but by the level of service and customer care they provide to you.

How are Public Utility Districts funded?

Customer fees

Bonds

Property taxes

Public Utility Districts (PUD) are community owned, locally regulated utilities created by a vote of the people. In 1936, county residents voted to create Kittitas County PUD to provide electricity to residents in specific areas of the county.
